

NANUK NEW WORLD FUND

OVERVIEW

The Nanuk New World Fund is an actively managed, diversified, global equity fund that seeks to outperform traditional global equity indices through investment in a large and growing component of the overall global equity universe positively impacted by global sustainability trends.

The Fund invests in companies that are benefiting from, or contributing to, improving global environmental sustainability and resource efficiency - primarily in areas such as clean energy, energy efficiency, industrial efficiency, advanced and sustainable materials, waste management, recycling and pollution control, food and agricultural productivity and healthcare technology.

These differentiated investments offer investors strong diversification benefits and the real potential to mitigate otherwise unmanaged risks embedded in traditional equity portfolios. Their overall characteristics reflect Nanuk's focus on investing in good quality businesses subject to favourable industry trends at prices that provide for attractive return potential.

The Fund is rated as a Responsible Investment by the Responsible Investment Association of Australia.

Performance to 30 Apr 2021 (Net Return, AUD)	1 Month (%)	YTD (%)	1 yr (% p.a.)	2yr (% p.a.)	3yr (% p.a.)	5 yr (% p.a.)	Since Inception (% p.a.)
