This wholesale offer made to New Zealand investors is available only to, and may only be accepted by, a Wholesale Investor who has completed a Wholesale Investor Certification. There is also a retail offer for the Fund described in the following section of this NZ Fact Sheet. Each New Zealand Wholesale Investor acknowledges and agrees that:

- (a) he, she or it has not offered, sold, or transferred, and will not offer, sell, or transfer, directly or indirectly, any units in the Fund; and
 - (b) he, she or it has not granted, issued, or transferred, and will not grant, issue, or transfer, any interests in or options over, directly or indirectly, any units in the Fund; and
 - (c) he, she or it has not distributed and will not distribute, directly or indirectly, a PDS or any other offering materials or advertisement in relation to any offer of any units in the Fund,
- in each case in New Zealand other than to a person who is a Wholesale Investor; and
- (d) he, she or it will notify Equity Trustees Limited if he, she, or it ceases to be a Wholesale Investor.

All references to Wholesale Investor in this document are a reference to an investor who is both a Wholesale Client under the Australian Corporations Act 2001 and a Wholesale Investor in terms of clause 3(2) of Schedule 1 of the Financial Markets Conduct Act 2013 (New Zealand).

New Zealand Retail Investors and the PDS

Please note that this Fund is also available to New Zealand retail investors who do not meet the definition of a Wholesale Investor (as that term is defined above). The wholesale restrictions that would otherwise apply to the offer of the Fund in New Zealand outlined in this Fact Sheet do not apply to prospective New Zealand investors who invest in the Fund under the trans-Tasman mutual recognition regime provided in subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014. The retail offer is available to New Zealand investors receiving the Fund's PDS in New Zealand (electronically or otherwise), who have read the separate New Zealand Investor Information Sheet. If you are a New Zealand retail investor wishing to invest in the Fund, please contact your New Zealand adviser for a copy of the Fund's New Zealand Investor Information Sheet.

References in the PDS that are relevant to New Zealand Wholesale Investors should be interpreted as references to the New Zealand Investor Information Sheet (in relation to the New Zealand retail offer) or to this Wholesale Investor Fact Sheet (in relation to the New Zealand wholesale offer), as the case may be.

Indirect investors

If you wish to invest indirectly in the Fund through an IDPS your IDPS Operator will complete the application for you. Your IDPS Operator will advise what minimum investment amounts relate to you.

Withdrawing your investment

Direct investors

Direct investors of the Fund can withdraw their investment by written request to:

Automic Group
GPO Box 5193
Sydney NSW 2000

Minimum withdrawal amounts are subject to the Australian dollar minimum amounts disclosed in the relevant PDS. Withdrawal requests received from New Zealand investors must specify:

- the withdrawal amount in Australian dollars; or
- the number of units to be withdrawn.

We are unable to accept withdrawal amounts quoted in New Zealand dollars. Please note that the withdrawal amount paid to you will be in Australian dollars and may differ from the amount you receive in New Zealand dollars due to:

- Foreign exchange spreads between Australian and New Zealand dollars (currency rate differs daily); and
- Overseas telegraphic transfer costs.

Withdrawals will only be paid directly to the investor's bank account held in the name of the investor with an Australian domiciled bank. Withdrawal payments will not be made to third parties.

Managing your investment

Distributions

If New Zealand investors elect to have their distribution directly credited they will need to nominate a bank account held in their own name with an Australian domiciled bank, otherwise it must be reinvested. Cash distributions will only be paid in Australian dollars to such an account. When the distribution is reinvested, New Zealand investors will be allotted units in accordance with the terms and conditions set out in the PDS relating to the units in the Fund. Please see the PDS for a description of distributions and the terms and conditions of the reinvestment of distributions.

The distribution reinvestment plan described in the PDS is offered to New Zealand investors on the following basis:

- At the time the price of the units allotted pursuant to the distribution reinvestment plan is set, the Responsible Entity will not have any information that is not publicly available that would, or would be likely to, have a material adverse effect on the realisable price of the units if the information were publicly available.
- The right to acquire, or require the Responsible Entity to issue, units will be offered to all investors of the same class, other than those resident outside New Zealand who are excluded so as to avoid breaching overseas laws.
- Units will be issued on the terms disclosed to you, and will be subject to the same rights as units issued to all investors of the same class as you.

There is available from the Responsible Entity, on request and free of charge, a copy of the most recent annual report of the Fund, the most recent financial statements of the Fund, the auditor's report on those financial statements, the PDS and the Constitution for the Fund (including any amendments). Other than the Constitution, these documents may be obtained electronically from www.eqt.com.au/insto.

Processing cut-off times

The processing cut-off times for applications and redemptions referred to in the PDSs are Australian Eastern Standard Time (Australian EST) and you should take this into account when sending instructions.

Cooling off rights

No cooling off period applies to units in the Fund as the units offered are only available in Australia to Wholesale Clients and in New Zealand to Wholesale Investors.

Taxation

New Zealand resident taxation

If you are a New Zealand resident wishing to invest in Australia, we strongly recommend that you seek independent professional tax advice. New Zealand resident investors will be taxed on their units under the foreign investment fund rules or ordinary tax rules, depending on their circumstances. Australian tax will be withheld at prescribed rates from distributions to non-residents to the extent that the distributions comprise relevant Australian sourced income or gains.

1. About Equity Trustees Limited

The Responsible Entity

Equity Trustees Limited

Equity Trustees Limited ABN 46 004 031 298 AFSL 240975, a subsidiary of EQT Holdings Limited ABN 22 607 797 615, which is a public company listed on the Australian Securities Exchange (ASX: EQT), is the Fund's responsible entity and issuer of this PDS. Established as a trustee and executorial service provider by a special Act of the Victorian Parliament in 1888, today Equity Trustees is a dynamic financial services institution which continues to grow the breadth and quality of products and services on offer.

Equity Trustees' responsibilities and obligations as the Fund's responsible entity are governed by the Fund's constitution ("Constitution"), the Corporations Act and general trust law. Equity Trustees has appointed Nanuk Asset Management Pty Limited as the investment manager of the Fund. Equity Trustees has appointed a custodian to hold the assets of the Fund. The custodian has no supervisory role in relation to the operation of the Fund and is not responsible for protecting your interests.

The Investment Manager

Nanuk Asset Management Pty Limited

Nanuk Asset Management Pty Limited ("Nanuk") is a specialist investment manager whose investment activities are focused on the broad global themes of environmental sustainability and resource efficiency. Nanuk is responsible for managing the Fund's investments.

Nanuk was founded in 2009 with the objective to develop leading global investment expertise related to the long-term theme of environmental sustainability and to seek to provide its investing clients with attractive returns by accessing the various growth opportunities and market inefficiencies associated with this theme.

Nanuk's investment approach is based on the belief that the natural tension between economic growth and environmental sustainability is resulting in long-term structural changes in many industries and that these changes provide an enduring source of investment opportunities that can be accessed through sound, intelligent research.

Nanuk, in its capacity as the investment manager of the Fund, may appoint a currency manager from time to time to provide currency hedging services. Information about the details of the currency manager is available on request.

2. How the Nanuk New World Fund (Currency Hedged) works

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund's investment strategy. Direct investors receive units in the Fund when they invest. In general, each unit represents an equal interest in the assets, and is subject to the liabilities, of the class of interests in the Fund; however, it does not give investors an interest in any particular asset of the Fund.

If you invest in the Fund through an IDPS (as defined in the Reference Guide) you will not become an investor in the Fund. The operator or custodian of the IDPS will be the investor entered in the Fund's register and will be the only person who is able to exercise the rights and receive the benefits of a direct investor. Your investment in the Fund through the IDPS will be governed by the terms of your IDPS. Please direct any queries and requests relating to your investment to your IDPS Operator. Unless otherwise stated, the information in the PDS applies to direct investors.

Applying for units

You can acquire units by submitting an Application Form together with the required supporting identification information to the unit registry. The minimum initial investment amount to invest in the Fund is \$50,000 for direct Wholesale Clients. For direct Wholesale Clients, a wholesale certificate must be submitted along with the application form. Indirect investors to refer to their IDPS Operator. The Application Form is available for completion online at www.nanukasset.com. Alternatively you may complete a paper copy as attached to this PDS.

Completed Application Forms should be sent along with your identification documents (if applicable) to:

Automatic Group
GPO Box 5193
Sydney NSW 2000

Please note that cash and cheques cannot be accepted.

We reserve the right to accept or reject applications in whole or in part at our discretion. We have the discretion to delay processing applications where we believe this to be in the best interest of the Fund's investors.

The price at which units are acquired is determined in accordance with the Constitution ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the Net Asset Value ("NAV") of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this PDS, the Buy Spread is 0.25%.

The Application Price will vary as the market value of assets in the Fund rises or falls.

Making additional investments

You can make additional investments into the Fund at any time by submitting an Additional Application to the Unit Registry or by making a correctly referenced BPAY payment. You can pay using EFT or BPAY[®]. The minimum additional investment into the Fund via EFT is \$5,000 for direct investors. There is no minimum additional investment amount for payments made via BPAY. Investment instructions submitted by 2.00pm (Sydney time) on a Business Day will generally be processed effective for that day.

Payment details

- EFT - payments can be made via EFT directly to the Fund's application bank account. The Fund's bank account details can be found in the online investor portal, on your application confirmation email and on the Application Form attached to this PDS. Important: If you wish to pay by EFT and you applied online, please ensure you quote your unique EFT reference code (sent on your confirmation email) in the reference field of your EFT payment. Failure to do so may result in your application being delayed. Note that your EFT reference code is different to your SRN. If you are applying via paper form, please quote your registered investment name as the EFT reference.
- BPAY - payments can be made via BPAY to the Fund's biller code 371971. Your unique BPAY reference code can be found on your application confirmation email.
- Additional applications - If you hold units directly with the Fund, you can add to your existing investment using BPAY[®] without the need to complete any forms. BPAY[®] provides you with the flexibility to make regular recurring additional investments at the frequency and amount of your choosing. There is no minimum investment amount for additional investments made using BPAY[®].
- Using your bank account's BPAY[®] function, nominate Nanuk New World Fund as a Biller. The Biller Code is 371971.
- Enter your unique customer reference number ("CRN") that can be found in the online investor portal. Please note that this is different from your SRN. Please contact the Unit Registry if you require confirmation of your CRN. We will use the CRN to allocate the additional investment to your account.
- Enter the amount of your additional investment. Note that your financial institution will generally allow a recurring BPAY[®] payment to be set up if you would like to make regular additional investments.
- Retain a copy of your BPAY[®] payment receipt as proof of payment.

The Unit Registry will send you a transaction confirmation once units have been issued to you. Please note that even though your BPAY[®] transaction is processed from your bank account immediately, your funds may take some time to be transferred to the Fund from your financial institution. Units will be issued only when we receive your funds and will be issued at the entry unit price applicable to the day payment is received.

Switching between unit classes

If an investor wishes to switch unit classes please submit a switching request form available at www.nanukasset.com.

Distributions

An investor's share of any distributable income is calculated in accordance with the Constitution and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually at the end of June, however, Equity Trustees may change the distribution frequency without notice. Distributions are calculated effective the last day of each distribution period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or

- directly credited to a bank account held in the name of the investor.

Investors who do not indicate a preference will have their distributions automatically directly credited to their bank account. Investors who wish to have their distributions reinvested for additional units in the Fund must indicate this preference either by updating this directly online via the Automic Investor Portal (visit investor.automic.com.au), via their broker if held on the broker sponsored sub-register or by contacting Automic (unit registry) to arrange. Applications for reinvestment will be taken to be received immediately prior to the next Business Day after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, the Constitution may allow for an investor's withdrawal proceeds to be taken to include a component of distributable income.

Indirect Investors should review their IDPS Guide for information on how and when they receive any income distribution.

New Zealand investors can only have their distribution directly credited if an AUD Australian domiciled bank account is provided. Otherwise it must be reinvested (refer to the Nanuk New World Fund (Currency Hedged) New Zealand Investor Information Sheet).

Access to your money

Investors in the Fund can generally withdraw their investment by completing a written request to withdraw from the Fund and mailing it to:

Automic Group
GPO Box 5193
Sydney NSW 2000

Or sending it by email to: nanuk@automicgroup.com.au.

The minimum withdrawal amount is nil. Once we receive and accept your withdrawal request, we may act on your instruction without further enquiry if the instruction bears your account number or investor details and your (apparent) signature(s), or your authorised signatory's (apparent) signature(s).

Equity Trustees will generally allow an investor to access their investment within 14 days of acceptance of a withdrawal request by transferring the withdrawal proceeds to such investor's nominated bank account. However, Equity Trustees is allowed to reject withdrawal requests, and also to make payment up to 30 days after acceptance of a request (which may be extended in certain circumstances) as outlined in the Constitution and Reference Guide.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion.

The price at which units are withdrawn is determined in accordance with the Constitution ("Withdrawal Price"). The Withdrawal Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this PDS, the Sell Spread is 0.25%.

The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below \$25,000 as a result of processing your withdrawal request. In certain circumstances, for example, when there is a freeze on withdrawals, where accepting a withdrawal is not in the best interests of investors in the Fund including due to one or more circumstances outside its control or where the Fund is not liquid (as defined in the Corporations Act), Equity Trustees can deny or suspend a withdrawal request and you may not be able to withdraw your funds in the usual processing times or at all. When the Fund is not liquid, an investor can only withdraw when Equity Trustees makes a withdrawal offer to investors in accordance with the Corporations Act. Equity Trustees is not obliged to make such offers.

If you are an Indirect Investor, you need to provide your withdrawal request directly to your IDPS Operator. The time to process a withdrawal request will depend on the particular IDPS Operator and the terms of the IDPS.

Unit pricing discretions policy

Equity Trustees has developed a formal written policy in relation to the guidelines and relevant factors taken into account when exercising any discretion in calculating unit prices (including determining the value of the assets and liabilities). A copy of the policy and, where applicable and to the extent required, any other relevant documents in relation to the policy will be made available free of charge on request.

Additional information

If and when the Fund has 100 or more direct investors, it will be classified by the Corporations Act as a 'disclosing entity'. As a disclosing entity, the Fund will be subject to regular reporting and disclosure obligations. Investors would then have a right to obtain a copy, free of charge, of any of the following documents:

- the most recent annual financial report lodged with ASIC ("Annual Report");
- any subsequent half yearly financial report lodged with ASIC after the lodgement of the Annual Report; and
- any continuous disclosure notices lodged with ASIC after the Annual Report but before the date of this PDS.

Equity Trustees will comply with any continuous disclosure obligation by lodging documents with ASIC as and when required.

Copies of these documents lodged with ASIC in relation to the Fund may be obtained from ASIC through ASIC's website.

3. Benefits of investing in the Nanuk New World Fund (Currency Hedged)

Significant features

The Fund's performance objective is to provide investment returns which exceed conventional global equity indices (hedged to Australian dollars), after management fees, over the long term.

The target asset exposure ranges for the Fund are:

- Global equities: 80-100%
- Cash and investment grade securities: 0-20%

In cases where the Fund temporarily moves beyond these ranges (for example, because of large market movements), Nanuk will endeavour to bring the Fund back within these ranges as soon as is practicable.

It is Nanuk's intention to substantially hedge the Fund's direct foreign currency exposure arising from investments in offshore markets back to Australian dollars.

Significant benefits

The Fund provides access to a diversified portfolio of predominantly listed global equity securities whose businesses contribute to and/or benefit from investment into the global secular themes associated with environmental sustainability and resource efficiency. The Investment Manager believes the global economy, and society more generally, will inevitably change to become more sustainable and these changes will have a material impact on the structure of the economy and the economics of individual companies. More specifically, we believe resource constraints and environmental challenges like climate change necessitate significant structural changes in the global economy in coming decades. Large parts of the global economy are transforming as a broad range of more efficient and sustainable technologies and practices replace incumbent solutions. Additionally, the complexity associated with ongoing structural and technological changes leads to inefficiencies in equity markets that has, and will continue, to result in opportunities to generate attractive returns from selective investment in companies that are benefiting from these trends. Nanuk's investment process incorporates a valuation-based approach coupled with fundamental insights into industries and investee companies and is focused on delivering strong investment returns from a negatively and positively screened investment universe focused on industries related to environmental sustainability and resource efficiency.

4. Risks of managed investment schemes

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Responsible Entity and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return or the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including advice about whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial adviser and/or taxation adviser.

Investment risk

This is the risk that the value of an investment may change or become more volatile, potentially causing a reduction in the value of the Fund and increasing its volatility. This may be due to, amongst many other things, changes in government policies, the Investment Manager's operations or management, the business environment or in perceptions of the risk of an investment. Various risks may lead to the issuer of an investment defaulting on its obligations and reducing the value of an investment to which the Fund has an exposure.

The Fund may hold securities with small or mid market capitalization that are less widely held and trade less frequently and in lesser quantities such that their market prices often fluctuate more than the securities of companies with larger market capitalisations.

Focusing investments in countries, regions, sectors or companies, or in industries related to the secular theme of environmental sustainability may have high positive correlations to one another, creating more risk than a less correlated traditional global equity investment.

The Fund's focus on the broad themes of environmental sustainability and resource efficiency means that factors which influence these themes (such as government policy, regulation and technological development) may impact the Fund more so than traditional global equity investment. Assessment of relevant considerations, although professional and informed, has an element of subjectivity.

Market risk

This is the risk that an entire market, country or economy changes in value or becomes more volatile, including the risk that the country's credit rating is downgraded (which reduces the nation's perceived creditworthiness), the purchasing power of currency changes (either through inflation or deflation), and/or other market-wide factors, like economic growth or the unemployment rate, deteriorate (which can cause a reduction in the value of the Fund and increase its volatility).

Amongst many other things, adverse changes in economic, financial, technological, political or legal conditions, as well as natural and manmade disasters, conflicts and shifts in market sentiment, may potentially cause a reduction in the value of the Fund and increase its volatility.

International risk

The Fund provides investors with exposure to global equity markets, with no geographical or market defined constraints.

It is expected that the Fund's equity investment exposure will be held primarily in the developed markets of North America, Europe and Asia. The Fund may provide exposure to other regions or emerging markets.

Investing internationally in one of the major asset categories like global equities will include all the risks associated with that asset class but will also include risks not associated with holding Australian investments such as currency risk. International investments may be more affected by political and economic uncertainties, lower regulatory supervision, movements in currency and interest rates and possibly more volatile, less liquid markets.

Emerging economies and markets are generally less sophisticated, with poorer reporting, governance and regulatory frameworks, and greater political, legal, liquidity and other risks as well as higher volatility.

Currency risk

It is Nanuk's intention to substantially hedge the Fund's direct foreign currency exposure arising from investments in offshore markets back to Australian dollars

Where the Fund's foreign currency exposure is hedged, the hedge may not provide complete protection from adverse currency movements. Currency markets can be extremely volatile and are subject to a range of unpredictable forces. Hedging is not always successful, may not always offset all currency risk, and is sometimes neither cost effective nor practical to use.

Unhedged or partially hedged international investments are fully or partially (as the case may be) exposed to the impact of currency movements in the Australian dollar.

Derivatives risk

It is possible that the Fund may obtain investment exposure through derivatives but only if the Investment Manager considers that direct investment is not practicable and that the investment exposure available through derivatives is compelling. Derivatives including over-the-counter (OTC) derivatives will be used to hedge currency exposure and may also be used to better manage some portfolio risks. Derivatives are not used to gear the Fund, nor are they used speculatively.

Derivatives are contracts between two parties that usually derive their value from the price of a physical asset or market index. Risks associated with derivatives include the possibility that the derivative position is difficult or costly to reverse, or that there is an adverse movement in the asset or index underlying the derivative or that the counterparties do not perform their obligations under the contract.

The Investment Manager manages the Fund with the intention that sufficient resources are available in a timely way to meet all derivatives obligations and counterparties are always leading financial institutions which the Investment Manager considers suitable.

5. How we invest your money

Warning: When choosing to invest in the Fund or an option of the Fund, you should consider the likely investment returns, the risks of investing and your investment time frame.

Investment objective

The Fund's performance objective is to provide investment returns which exceed conventional global equity indices (hedged to Australian dollars), after management fees, over the long term.

Minimum suggested time frame

The minimum suggested time frame for investment in the Fund is 5 years.

Risk level

High

Investor suitability

This Fund may be suitable for investors who have a long-term view and a high risk tolerance seeking exposure primarily to a diversified portfolio of listed global equity securities related to the broad themes of environmental sustainability and resource efficiency.

An investment in the Fund should be regarded as long term, and investors should invest for 5 years or longer.

The value of the Fund can move quickly and substantially. As such, it should be considered as a potentially volatile investment.

Remember that investing involves risk, and you can lose money as well as make money. Neither returns nor the money you invest in the Fund are guaranteed. It is strongly advised that you obtain professional advice before making any such investment.

Investment style and approach

The Investment Manager's approach is based on the belief that the natural tension between economic growth and environmental sustainability is resulting in long term structural changes in many industries and that these changes provide an ongoing source of investment opportunities that can be accessed through sound research. Nanuk believes that increasing global investment in more sustainable products and services may benefit selected companies in these industries and that investing in a managed portfolio of such companies has the potential to outperform global equities benchmarks over the longer term.

In managing the Fund, Nanuk's approach is primarily bottom up and focused on identifying stocks that Nanuk considers mispriced and then constructing well diversified portfolios of such opportunities. The investment approach is primarily fundamental but is supported by quantitative tools which enable coverage and analysis of a large and global investment universe.

Asset allocation

The target asset exposure ranges for the Fund are:

- Global equities: 80-100%
- Cash and investment grade securities: 0-20%

In cases where the Fund temporarily moves beyond these ranges (for example, because of large market movements), Nanuk will endeavour to bring the Fund back within those ranges as soon as is practicable.

International exposure

The Fund provides investors with exposure to global equity markets, with no geographical or market defined constraints. It is expected that the Fund's equity investment exposure will be held primarily in the developed markets of North America, Europe and Asia.

The Fund may also provide exposure to other regions or emerging markets.

With global exposure also comes exposure to the impact of currency movements – see Currency risk in Section 4.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical Considerations

The Investment Manager addresses environmental, social and ethical considerations and the consideration of norms for responsible business practices through a combination of positive screening, negative screening, ESG integration and stewardship activities.

The Fund is solely focused on investing in listed global companies whose business activities are assessed to be contributing to or benefiting from the broad themes of environmental sustainability and resource efficiency. This is implemented via a universe constructed through positive screening for exposure to selected industries, technologies, products and services related to improving global sustainability.

The Investment Manager seeks to avoid investment in companies with levels of involvement in activities that are deemed by the Investment Manager to be inconsistent with the Fund's focus on sustainability, companies operating in severe or potentially severe contravention of established norms for responsible business practices or companies that are involved in areas of significant environmental or ethical concern set by the Investment Manager (including any applicable materiality thresholds) from time to time, or otherwise misaligned with the sustainability focus of the Investment Manager. This is implemented via negative based screening in the construction of the Fund's investment universe.

Examples of companies generally avoided on this basis include, but are not limited to, those engaged in the exploration or extraction of coal, oil or natural gas or the production of alcohol, tobacco or pornography. The negative screen may include the application of materiality thresholds determined by the Investment Manager from time to time in relation to the extent of the company's revenue permitted to be drawn from the relevant activity, with the threshold generally ranging from 0% to 30%.

In assessing investments for the Fund, the Investment Manager incorporates the subjective assessment of selected environmental, social and governance factors. This analysis focuses on factors the Investment Manager believes are material to the sustainability and future performance of companies and the extent to which that will benefit shareholders. These include, but are not limited to, the quality and capability of the board and management, the alignment of interest between management and shareholders, the sustainability of a company's activities (products and services) and the sustainability of relationships with stakeholders.

The Investment Manager takes into account Labour Standards in its negative screening in the construction of the Fund's investment universe and seeks to avoid investment in companies operating in severe violations of norms for responsible business practices such as the UN Global Compact.

Where practical, the Investment Manager may seek to influence companies to improve their impact on global sustainability outcomes and the sustainability of their governance and business practices. This is done through proxy voting aligned with a sustainability based voting policy and selective engagement activities.

Nanuk's approach to sustainable investment is set out in the firm's Sustainability, ESG, Stewardship and Climate Change Policies and is described in detail in our Responsible and Sustainable Investment Statement (available from our website www.nanukasset.com).

Fund performance

Up to date information on the performance of the Fund can be obtained from www.eqt.com.au/insto. A free of charge paper copy of the information will also be available on request.

Additional information on the Fund

The Fund's primary investment focus is listed global equity securities, however investments in IPO securities may be made where the investment case is compelling and where exposure is possible subject to certain constraints. Up to 5% of the Fund's total assets may be invested into IPO securities, provided that at the time the relevant securities have been approved be listed on a regulated stock exchange and settlement of the IPO proceeds is conditional upon listing.

Derivative instruments may be employed to gain exposure to underlying investments if the Investment Manager considers that direct investment may not be practicable and the investment exposure is compelling. These would generally be specific positions with selected counterparties and typically in the form of over-the-counter (OTC) instruments such as total return swaps or warrants or else listed instruments such as convertible bonds. OTC foreign exchange contracts may also be used to facilitate settlement and mitigate currency risk. Derivatives will not be used to gear the Fund, nor will they be used in a speculative manner. The Fund will not hold notional derivative exposures that in aggregate relate to underlying assets valued at more than 10% of the NAV of the Fund (excluding derivatives used solely to hedge foreign exchange risk of the underlying assets).

The Fund may also hold cash and/or investment grade interest bearing securities from time to time where the Investment Manager considers such holdings to be appropriate.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** Moneysmart website (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

The information in the following Fees and Costs Summary can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from an investor's account or deducted from investment returns. For information on tax please see Section 7 of this PDS.

³ The indirect costs component of management fees and costs and transaction costs is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period. Please see "Additional Explanation of Fees and Costs" below.

Additional Explanation of Fees and Costs

Management fees and costs

The management fees and costs include amounts payable for administering and operating the Fund, investing the assets of the Fund, expenses and reimbursements in relation to the Fund and indirect costs if applicable.

Management fees and costs do not include performance fees or transaction costs, which are disclosed separately.

The management fees component of management fees and costs of 1.10% p.a. of the NAV of the Fund is payable to the Responsible Entity of the Fund for managing the assets and overseeing the operations of the Fund. The management fees component is accrued daily and paid from the Fund monthly in arrears and reflected in the unit price. As at the date of this PDS, the management fees component covers certain ordinary expenses such as Responsible Entity fees, investment management fees, custodian fees, and administration and audit fees.

The indirect costs and other expenses component of 0.00% p.a. of the NAV of the Fund may include other ordinary expenses of operating the Fund, as well as management fees and costs (if any) arising from interposed vehicles in or through which the Fund invests. The indirect costs and other expenses component is variable and reflected in the unit price of the Fund as the relevant fees and costs are incurred. They are borne by investors, but they are not paid to the Responsible Entity or Investment Manager. The indirect costs and other expenses component is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period.

In relation to the costs that have been estimated, they have been estimated on the basis of relevant information for a similar product offering in the market offered by the Investment Manager.

Actual indirect costs for the current and future years may differ. If in future there is an increase to indirect costs disclosed in this PDS, updates will be provided on Equity Trustees' website at www.eqt.com.au/insto where they are not otherwise required to be disclosed to investors under law.

Transaction costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, buy-sell spreads in respect of the underlying investments of the Fund, settlement costs, clearing costs and applicable stamp duty when assets are bought and sold. Transaction costs also include costs incurred by interposed vehicles in which the Fund invests (if any), that would have been transaction costs if they had been incurred by the Fund itself. Transaction costs are an additional cost to the investor where they are not recovered by the Buy/Sell Spread, and are generally incurred when the assets of the Fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of the Fund.

The Buy/Sell Spread that is disclosed in the Fees and Costs Summary is a reasonable estimate of transaction costs that the Fund will incur when buying or selling assets of the Fund. These costs are an additional cost to the investor but are incorporated into the unit price and arise when investing application monies and funding withdrawals from the Fund and are not separately charged to the investor. The Buy Spread is paid into the Fund as part of an application and the Sell Spread is left in the Fund as part of a redemption and not paid to Equity Trustees or the Investment Manager. The estimated Buy/Sell Spread is 0.25% upon entry and 0.25% upon exit. The dollar value of these costs based on an application or a withdrawal of \$50,000 is \$125 for each individual transaction. The Buy/Sell Spread can be altered by the Responsible Entity at any time and www.eqt.com.au/insto will be updated as soon as practicable to reflect any change. The Responsible Entity may also waive the Buy/Sell Spread in part or in full at its discretion. The transaction costs figure in the Fees and Costs Summary is shown net of any amount recovered by the Buy/Sell Spread charged by the Responsible Entity.

Transaction costs generally arise through the day-to-day trading of the Fund's assets and are reflected in the Fund's unit price as an additional cost to the investor, as and when they are incurred.

The gross transaction costs for the Fund are 0.14% p.a. of the NAV of the Fund, which is based on a reasonable estimate of the costs for the current financial year to date, adjusted to reflect a 12 month period.

In relation to the costs that have been estimated, they have been estimated on the basis of relevant information for a similar product offering in the market offered by the Investment Manager, the expected seed investment and the cost of hedging.

However, actual transaction costs for future years may differ.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. The current maximum management fee to which Equity Trustees is entitled is 2.00% of the GAV of the Fund. However, Equity Trustees does not intend to charge that amount and will generally provide investors with at least 30 days' notice of any proposed increase to the management fees component of management fees and costs. In most circumstances, the Constitution defines the maximum level that can be charged for fees described in this PDS. Equity Trustees also has the right to recover all reasonable expenses incurred in relation to the proper performance of its duties in managing the Fund and as such these expenses may increase or decrease accordingly, without notice.

Payments to IDPS Operators

Subject to the law, annual payments may be made to some IDPS Operators because they offer the Fund on their investment menus. Product access is paid by the Investment Manager out of its investment management fee and is not an additional cost to the investor.

Differential fees

The Investment Manager may from time to time negotiate a different fee arrangement (by way of a rebate or waiver of fees) with certain investors who are Australian Wholesale Clients or New Zealand Wholesale Investors. Please contact the Investment Manager on +61 2 9258 1600 for further information.

Example of annual fees and costs for an investment option

This table gives an example of how the ongoing annual fees and costs in the investment option for this product can affect your investment over a 1-year period. You should use this table to compare this product with other products offered by managed investment schemes.

EXAMPLE – Nanuk New World Fund (Currency Hedged)		
BALANCE OF \$100,000 WITH A CONTRIBUTION OF \$5,000 DURING THE YEAR		
Contribution Fees	Nil	For every additional \$5,000 you put in, you will be charged \$0
Plus Management fees and costs	1.10% p.a.	And , for every \$100,000 you have in the Nanuk New World Fund (Currency Hedged) you will be charged or have deducted from your investment \$1,100 each year
Plus Performance fees	Not applicable	And , you will be charged or have deducted from your investment \$0 in performance fees each year
Plus Transaction costs	0.00% p.a.	And , you will be charged or have deducted from your investment \$0 in transaction costs
Equals Cost of Nanuk New World Fund (Currency Hedged)		If you had an investment of \$100,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: 1,100* What it costs you will depend on the investment option you choose and the fees you negotiate.

* Additional fees may apply. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

This example assumes the \$5,000 contribution occurs at the end of the first year, therefore the fees and costs are calculated using the \$100,000 balance only.

Warning: If you have consulted a financial adviser, you may pay additional fees. You should refer to the Statement of Advice or Financial Services Guide provided by your financial adviser in which details of the fees are set out.

ASIC provides a fee calculator on www.moneysmart.gov.au, which you may use to calculate the effects of fees and costs on account balances.

The indirect costs and other expenses component of management fees and costs and transaction costs may also be based on estimates. As a result, the total fees and costs that you are charged may differ from the figures shown in the table.

Further reading

You should read the important information in the Reference Guide about fees and costs under the "Fees and other costs" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto or the Nanuk website at www.nanukasset.com. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

7. How managed investment schemes are taxed

Warning: Investing in a registered managed investment scheme (such as the Fund) is likely to have tax consequences. You are strongly advised to seek your own professional tax advice about the applicable Australian tax (including income tax, GST and duty) consequences and, if appropriate, foreign tax consequences which may apply to you based on your particular circumstances before investing in the Fund.

The Fund is an Australian resident for tax purposes and does not generally pay tax on behalf of its investors. Australian resident investors are assessed for tax on any income and capital gains generated by the Fund to which they become presently entitled or, where the Fund has made a choice to be an Attribution Managed Investment Trust ("AMIT") and the choice is effective for the income year, are attributed to them.

You should read the important information in the Reference Guide about Taxation under the "Other important information" section before making a decision. Go to the Reference Guide which is available at www.eqt.com.au/insto or the Nanuk website at www.nanukasset.com. Cooling off period

No cooling off period applies to investments made by Wholesale Clients.

Indirect Investors should seek advice from their IDPS Operator as to whether cooling off rights apply to an investment in the Fund by the IDPS. The right to cool off in relation to the Fund is not directly available to an Indirect Investor. This is because an Indirect Investor does not acquire the rights of a unit holder in the Fund. Rather, an Indirect Investor directs the IDPS Operator to arrange for their monies to be invested in the Fund on their behalf. The terms and conditions of the IDPS Guide or similar type document will govern an Indirect Investor's investment in relation to the Fund and any rights an Indirect Investor may have in this regard.
