

NANUK NEW WORLD FUND

A GLOBAL EQUITIES FUND GENERATING RETURNS
FROM INVESTMENTS IN A UNIVERSE OF LISTED EQUITIES EXPOSED
TO THE BROAD THEMES OF ENVIRONMENTAL SUSTAINABILITY
AND RESOURCE EFFICIENCY

The Nanuk New World Fund is an actively managed, diversified, global equities fund that seeks to outperform traditional global equity indices through investment in a large and growing component of the overall global equity universe positively impacted by global sustainability trends.

The Fund invests in companies that are benefiting from, or contributing to, improving global environmental sustainability and resource efficiency - primarily in areas such as clean energy, energy efficiency, industrial efficiency, advanced and sustainable materials, waste management, recycling and pollution control, food and agricultural productivity and healthcare technology.

These differentiated investments can offer investors strong diversification benefits and the potential to mitigate otherwise unmanaged risks embedded in traditional equity portfolios. Nanuk's fundamental investment approach seeks to identify good quality, well managed and sustainable businesses subject to favourable industry trends at prices that provide for attractive return potential.

The Fund is rated as a Responsible Investment by the Responsible Investment Association of Australia.
